PROFESSIONAL SUMMARY

Full-stack software developer with 7+ years of professional experience building and maintaining web applications, REST APIs, databases and mobile applications. Experience across enterprise clinical systems, CRM and reporting platforms, learning applications, internal business tools and a multi-app food delivery product, using .NET, PHP/Laravel, React, Angular and Flutter. Comfortable owning a feature from interface through API to schema, and equally comfortable working inside an existing codebase to fix production issues and deliver under deadline.

CORE TECHNICAL SKILLS

Frontend	React, Angular, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, jQuery
Backend & APIs	.NET, ASP.NET, ASP.NET MVC, ASP.NET Core, Web API, REST APIs, PHP, Laravel, CodeIgniter, Entity Framework
Mobile	Flutter, Android, iOS, Push Notifications
Databases	SQL Server, MySQL, PostgreSQL, MongoDB, SQL
Cloud & DevOps	Azure, AWS, Docker, CI/CD, Git, GitHub, IIS, Logging & Monitoring
Authentication & Security	OAuth 2.0, JWT, SSO, Microsoft Entra ID, MSAL, Role-Based Access Control, API Security
Practices & Tooling	Debugging, Performance Tuning, System Design, Code Review, Agile / Scrum, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Technology Analyst — Infosys

Nov 2022 — Present

Hyderabad, India

Enterprise applications for a global pharmaceutical client (Pfizer), including clinical records management and real-time operational monitoring.

- Develop and maintain enterprise-scale applications using ASP.NET, MVC, .NET Web API, React and PHP.
- Build clinical records management features — dashboards, SLA tracking and administrative workflows — on .NET Web API and React.
- Work on real-time operational monitoring with live data pipelines and components sized for high-volume processing.
- Optimise backend logic and database queries, and resolve production issues affecting availability and performance.
- Gather requirements with product owners, QA and business stakeholders, and deliver enhancements against them.
- Conduct code reviews and work in Agile/Scrum — sprint planning, stand-ups and retrospectives.

Mobile Developer (part-time) — NoHung

May 2022 — Apr 2023

India

Food delivery product spanning customer, delivery partner and restaurant/admin applications.

- Designed and developed backend services in PHP for the delivery rider application.
- Built cross-platform mobile features in Flutter across the connected applications.
- Implemented real-time order tracking and delivery status updates through API integrations.
- Improved application performance and the interface for order and delivery flows.

Full Stack Developer — Asthra Interactive Media

Sep 2019 — Oct 2022

Hyderabad, India

Learning management platform, sales CRM and associated web and mobile applications.

- Developed scalable web and mobile applications using ASP.NET, MVC, React, PHP and Laravel.
- Built a learning management platform on a CodeIgniter backend with a Bootstrap front end, covering course management and learner interaction.
- Developed a sales CRM to support lead tracking and sales team productivity.
- Built and maintained backend logic, REST APIs and database integrations.
- Used Flutter to deliver mobile-compatible versions of the learning platform.
- Performed testing, debugging and performance optimisation across multiple projects.

INDEPENDENT & FREELANCE ENGINEERING

Independent engagements providing short-notice development support to companies needing help with existing software projects.

- Production issue investigation and defect resolution on live applications.
- Feature completion and API development under tight timelines.
- Database fixes, data repair and query performance work.
- Legacy application maintenance and incremental enhancement.
- Technical consultation on approach and sequencing.

SELECTED PROJECTS

Enterprise Clinical Platform

Clinical / Healthcare

React • TypeScript • ASP.NET Core • Web API • SQL Server • Microsoft Entra ID • MSAL

CRM & Business Dashboard

CRM / Business Applications

Angular • TypeScript • ASP.NET MVC • Web API • SQL Server • Bootstrap • REST APIs

Learning Management Platform

Education / EdTech

PHP • Laravel • MySQL • JavaScript • Bootstrap • REST APIs • RBAC

Food Delivery Ecosystem

Consumer / Marketplace

Flutter • Android • iOS • REST APIs • MySQL • JWT • Push Notifications

Full case studies — problem, architecture, contribution and outcome — at /projects

EDUCATION

Bachelor of Technology (B.Tech), Electronics & Communication Engineering

Aug 2015 — May 2019

Mahatma Gandhi Institute of Technology (MGIT)

LANGUAGES

English, Hindi, Telugu, Urdu
